"Destani Wolf drops a soulmatic cut... a formidable offering, tapping into the heartbreak funk of masterpieces like Marvin/Leon Ware's I Want You for a refreshing update on the blues tradition." - 

Once again singer-songwriter, Destani Wolf offers impeccable vocal prowess as a conduit for spiritual awakening on her new 'PEEK AWAY' EP. Drawing on nuances of Blues explored as part of her musical foundation, this collection of six (6) songs finds the Berkeley raised songstress arriving at an evolved take on her signature soul-step.

Take one listen to her emotionally powerful and melodic vocals, through songs laden with orchestral-strings such as on "Nothing but the Best" or "Peek Away", there's no mistaking the SOUL in her DNA. On 'PEEK AWAY', soaring soundscapes underlay the interwoven retro-futurism of nu soul and 70s funk on "Why Should I Stay" and "Uprising (Do-it!)", making her 6-pack solid. Including a true dedication of love "Your Love for me" which won The 2015 Independent Music (Vox Pop) Award in the love category. 'PEEK AWAY' EP gives the listener a chance at hope, an outlet to cope and a positive window into beginning to be healed.

Whether opening for Alice Smith or Laura Mvula at San Francisco's 'The Independent', performing live with the likes of UK's Alice Russell on 'Jimmy Kimmel Live!' or gracing the stage with shows in New York ('Lincoln Center', 'Joe's Pub'), San Francisco Bay ('Yoshi's', 'Bimbos', 'SFJazz Center', 'Stern Grove Festival') and Los Angeles ('LACMA', 'Sonos Studio', 'UCLA Jazz Reggae Fest', 'KCRW MBE'), Destani, who also writes songs and sings in Spanish, has recordings on two Grammy-nominated Latin Jazz LPs (John Santos 'S.F.BAY' and Jose Rizo's 'MONGORAMA'). She recently contributed vocals for the songs "Crossroads" and "Live like a Warrior" by Matisyahu while working with producer Koolha (Nicki Minaj, Flo Rida, Ke\$ha), and has also lent her voice to other projects with Artists such as Miguel Atwood-Ferguson, Seu Jorge, Crown City Rockers, Zap Mama, Quantic, SoVosó (Bobby McFerrin offshoot), and The Pharcyde. You can also hear her voice & compositions on TV and Films like Disney's 'The Descendants', Kevin Hart's 'Laugh at my Pain', SYTYCD and more. Her solo debut LP 'AGAIN and AGAIN' (06) - though a bit more contemporary sounding than this 'PEEK AWAY' EP, still remains an underground classic of edgy soul.
